Ideation Phase
Empathize & Discover

Date	31 January 2026
Team ID	[Enter Team ID]
Project Name	Global Fuel Prices and Taxation Analysis (2020 to 2026)
Maximum Marks	4 Marks

Empathy Map Canvas:

An empathy map is a simple, easy-to-digest visual that captures knowledge about a user's behaviours and attitudes. It helps participants consider things from the user's perspective along with his or her goals and challenges.

Empathy Map 2

SAYS		THINKS
• "Where is diesel cheapest right now?" • "What will prices do next year?" • "Which regions are the riskiest?"	**Marcus Thompson** *(Global Supply Chain Manager)*	• Am I overpaying for fuel in some markets? • Can I plan purchases before prices rise? • Will volatility break my budget?
DOES		**FEELS**
• Compares fuel prices by country and region • Reviews price trends and forecasts • Adjusts routes and buying plans		• Worried about sudden price swings • Frustrated by missing forecasts • Relieved when trends are easy to read

Empathy Map 3

SAYS		THINKS
• "Do rich countries tax fuel differently?" • "Are subsidies helping poorer countries?" • "I need patterns I can publish."		• Is fuel affordable in developing economies? • Does tax rise with income or not? • Is the data reliable enough to cite?
	Prof. Elena Rodriguez *(Energy Economics Researcher)*	
DOES		**FEELS**
• Groups countries by income level • Looks for correlations and outliers • Writes up findings for papers and reports		• Curious when a pattern appears • Frustrated by manual data cleaning • Motivated by clear evidence
